Which THREE of the above are risk factors for each of the ?following

.Each option may be used once, more than once or not at all

Question 1

.Late onset schizophrenia .1

.Choose three

Question 1

.Late onset schizophrenia .1

.Choose three

Visual impairment

Living alone

Female sex

Question 1

Depression .2

.Choose three

Question 1

Depression .2

.Choose three

Living alone

Female Sex

Past psychiatric history

Question 1

Suicide .3

.Choose three

Question 1

Suicide .3

.Choose three

Recent discharge from hospital

Past psychiatric history

living alone

Question 2

A. Leucopenia
B. Renal failure
C. Neuroleptic malignant syndrome
D. Thrombocytopenia
E. Seizures
F. Agranulocytosis
G. Gastric bleeding
H. Orthostatic hypotension
I. Steven Johnson syndrome
J. Leukocytosis

Select the most serious side effect that could be caused by the following drugs.

Each option may be used once, more than once or not at all

Question 2

. Clozapine .1

.Choose One

Question 2

. Clozapine .1

.Choose One

Agranulocytosis

Question 2

Lamotrigine .2

.Choose One

Question 2

Lamotrigine .2

.Choose One

Steven Johnson syndrome

Question 2

Selective Serotonin reuptake inhibitors .3

.Choose One

Question 2

Selective Serotonin reuptake inhibitors .3

.Choose One

Gastric Bleeding

Question 2

Haloperidol .4

.Choose One

Question 2

Haloperidol .4

.Choose One

Neuroleptic malignant syndrome

Question 2

Lithium .5

.Choose One

Question 2

Lithium .5

.Choose One

Renal failure

Question 3

.A. Adjustment disorder

B. Bipolar affective disorder, current episode severe depression .without psychotic symptoms

.C. Acute stress reaction

.D. Moderate depressive episode

.E. Organic depressive disorder

.F. Mixed anxiety and depression

.G. Severe depressive episode with psychotic symptoms

H. Bipolar affective disorder, current episode severe depression with .psychotic symptoms

.I. Mild depressive episode

Choose the most appropriate diagnosis for each of the .following

.Each option may be used once, more than once or not at all
